Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 23 July 2004.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the applicant needs to provide a description of an "ATV-type tire."

Claim Objections

2. Claim 2 is objected to because of the following informalities: the phrase "an ATV-type tire" should be *a tire*. Appropriate correction is required.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "ATV-type tire" is unclear; the examiner notes the applicant fails to provide a description in the specification of the phrase. Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haynes (6,105,721) in view of Katsuoka (4,527,831).

Haynes teaches an ATV comprising a frame; at least three wheels suspended from the frame, at least one of which is a front wheel and at least one of which is a rear wheel; a power unit for driving at least one of the wheels disposed on the frame; a straddle-type seat disposed on the frame, the seat including a main seat portion; and a steering member for steering at least one of the wheels. The at least three wheels comprise only four wheels, two of which are front wheels and two of which are rear wheels; each of the wheels includes a tire; and the steering member comprises handlebars.

Haynes teaches the claimed invention except for a secondary seat portion rearward of and adjacent to the main seat portion. Katsuoka teaches a motorcycle comprising a straddle-type seat including a main seat portion 20 and a secondary seat portion 24 rearward of and adjacent to the main seat portion. The secondary seat portion has a rearward part that is laterally wider than the forward part of the secondary seat portion. The main seat portion includes a forward part that is laterally narrower than the rearward part of the main seat portion. The main and secondary portions taper laterally inwardly from their rearward parts to their forward parts, respectively, see figure 5. Based on the teachings of Katsuoka, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the ATV of Haynes to include a secondary seat rearward of and adjacent to the main seat portion to provide an improved seating arrangement.

Response to Arguments

5. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
